Detailed Crime Report

Mumbai | Pune | Bengaluru

Area-wise crime statistics compiled from police records, NCRB data and news reports

Prepared 8 October 2026. Latest data: Mumbai to August 2026, Pune to May 2026, Bengaluru to 2025.

1. Executive summary

This report compares reported crime in India's three large western and southern metros using the most recent official and press-reported figures available on 8 October 2026. Figures are **registered cases (FIRs)**, not proven crimes. Rising counts can reflect easier registration (e-FIR, the 112 helpline, mandatory FIRs for small cyber frauds) rather than more crime.

Key findings

- **Mumbai:** Mumbai Police recorded **64,012** IPC/BNS cases in 2025, up from 52,718 in 2024. Jan-Aug 2026 stands at **55,471** against 40,791 a year earlier, but almost all of that rise sits in the unitemised "Other IPC" head (42,016 vs 26,836). Itemised violent crime is mixed: murder 104 (vs 99), attempt to murder 311 (vs 200), rape 596 (vs 653).
- **Mumbai, area-wise:** The West region (Vile Parle, Bandra, Andheri, Jogeshwari and nearby) had the most registered crime in 2022, the latest year with police-region data (18,999 cases), then North (15,684) and Central (14,289). West also led on rape (256), molestation (741), hurt (1,321), theft (4,702) and vehicle theft (943).
- **Pune:** Pune city recorded **79 murders in 2025** (93 in 2024, 101 in 2023) and 179 attempts to murder, the lowest in five years. Non-fatal assault stays high (1,453 hurt cases). Police figures for Jan-May 2026 show murder plus attempt to murder down 10.5% and robbery down 36% against the same months of 2025. Neighbouring Pimpri-Chinchwad (a separate commissionerate) recorded 6,904 crimes, 63 murders and 301 rapes in 2025.
- **Bengaluru:** Bengaluru City recorded **37,181 IPC/BNS cases and 19,291 Special and Local Law cases in 2025** (56,472 in total). Street crime fell sharply in 2025 (robbery -47%, chain snatching -53%, dacoity -21%, vehicle theft -19%), while murders were flat. Bengaluru remains India's cybercrime capital: 17,561 cases in 2024 (NCRB), though registrations fell about 41% in Jan-Oct 2025.
- **Cybercrime** is the clearest dividing line: Bengaluru 17,561, Mumbai 4,939 and Pune 1,504 cases in 2024 (NCRB). Detection is low everywhere (Mumbai 32% in 2025; Bengaluru about 7% in 2023).

What this report cannot do

A true "X area found N cases" breakdown for every neighbourhood is not publicly available for these cities in current form. **Mumbai** has police-region data (five regions covering all 12 zones), but only to 2022. **Pune** publishes city-wide totals but not per-zone or per-station counts that I could find. **Bengaluru** publishes city-wide totals; division-level figures appear only for cybercrime in press reports. Sections 4.3, 5.3 and 6.3 show what exists and flag the gaps. Section 8 explains how to obtain finer data (RTI, CCTNS, police crime-review requests).

2. Sources and method

Figures come from the sources below, in descending order of authority. Where sources disagree, both are shown.

Source type	What was used
Police / government (primary)	Mumbai Police monthly crime statements (Dec 2025 and Aug 2026 PDFs, mumbaipolice.gov.in); Karnataka State Police 2025 district and commissionerate data (via OpenCity); Pune City Police annual crime review statements; Pimpri-Chinchwad Police annual review; NCRB "Crime in India" 2022-2024 (via press reports).
Research (RTI-based)	Praja Foundation, "State of Policing and Law and Order in Mumbai" (2023 edition, data to 2022), which holds police-region and railway-station tables obtained under the RTI Act.
Newspapers and wires	Free Press Journal, Deccan Herald, PTI (via The Week), Hindustan Times (via PressReader), The Hans India, The News Minute, Mumbai Live, The Tribune, Daily Pioneer, Citizen Matters, Policenama.

On your source list. *I did not find usable crime tables from Dainik Bhaskar, Dainik Jagran, Naidunia, Patrika, Amar Ujala, Hindustan, Times of India or The Indian Express in my searches, so none are cited. The Gwalior items (local Gwalior websites, Gwalior Police, MP Police/CCTNS) cover a different city and were not used. If you want those papers' coverage of specific incidents in these cities, tell me which incidents or months to target.*

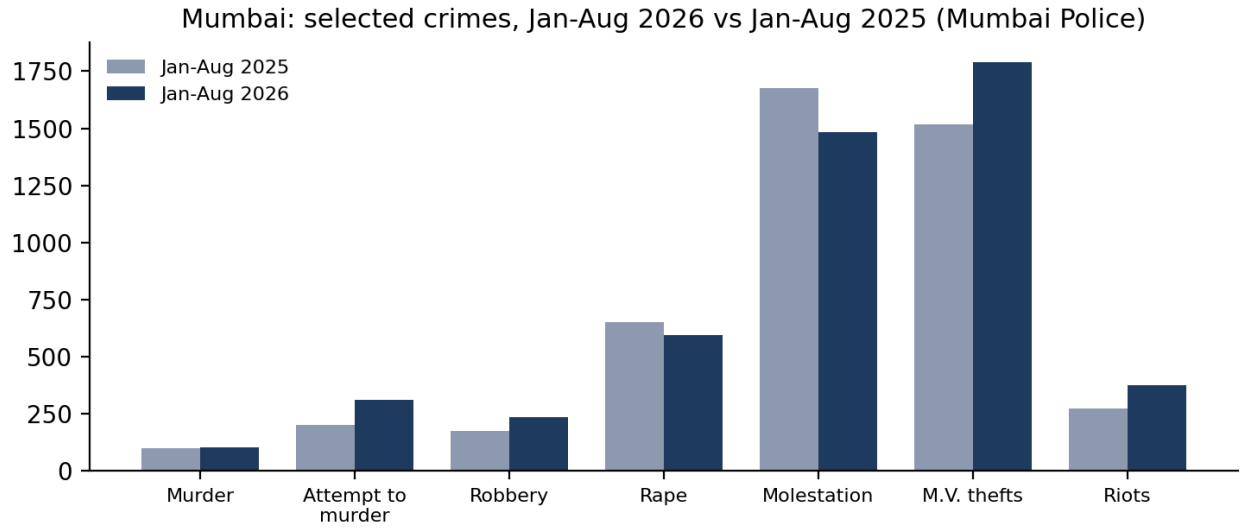

3. Mumbai

Mumbai Police (Greater Mumbai Commissionerate) is organised into five regions (South, Central, East, West, North), 12 zones and about 91 police stations. It publishes monthly crime statements; the August 2026 statement is the latest. Recent statements count IPC and BNS cases together.

3.1 City-wide totals, 2024 to August 2026

Crime head	2024	2025	Jan-Aug 2025	Jan-Aug 2026
Murder	107	126	99	104
Attempt to murder	303	324	200	311
Dacoity	16	20	8	13
Robbery	474	321	177	237
Chain snatching (robbery)	116	85	56	70
Extortion	199	314	201	207
House-breaking, day	237	179	117	90
House-breaking, night	1,070	904	588	560
Thefts	8,262	8,060	5,351	4,469
Motor vehicle thefts	2,589	2,299	1,516	1,788
Snatching	117	181	133	105
Hurt	4,362	4,122	2,754	2,802
Riots	323	451	273	374
Rape	1,051	1,262	653	596
Molestation	2,397	2,468	1,677	1,484
Other IPC/BNS	31,066	42,884	26,836	42,016
Total IPC/BNS	**52,718**	**64,012**	**40,791**	**55,471**

Source: Mumbai Police comparative statements of IPC crime, Dec 2025 and Aug 2026. "Previous year" columns are as printed by the police.

- **Read the total carefully.** The 36% jump in Jan-Aug 2026 is driven by "Other IPC/BNS" (+15,180 cases). The statement does not itemise it, so it should not be read as a rise in serious crime.
- **Sexual offences are now reported in two lines.** From 2026 the police list Section 69 BNS (sex by deceitful means, major victims) separately: 238 cases in Jan-Aug 2026 vs 154 a year earlier. Adding it to "Rape" gives about 834 vs 807, so the apparent fall in rape is much smaller than the table suggests.
- **Detection (2025):** overall 81%; murder 98%; robbery 99%; rape 96%; molestation 97%; but theft only 34%, motor vehicle theft 59%, house-breaking at night 68%.

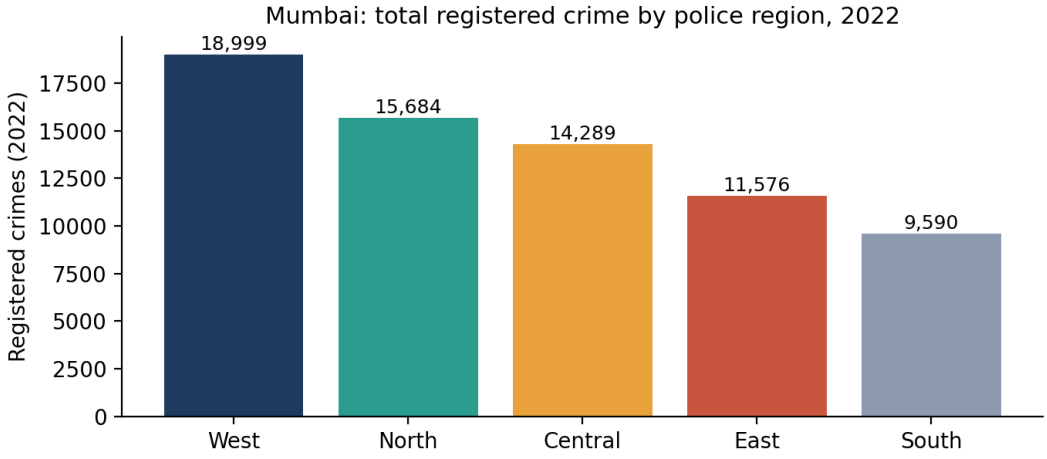

3.2 Crimes against women, cyber, drugs, economic offences

Indicator	2024	2025	Jan-Aug 2025	Jan-Aug 2026
Total crime against women	6,327	7,143	4,556	4,354
Rape of minors (POCSO)	609	653	418	449
Kidnapping of women and girls	1,231	1,428	948	882
Outraging modesty (s.354 IPC / BNS)	2,394	2,467	1,666	1,483
Cruelty and dowry harassment (498-A / 85 BNS), dowry-related	438	529	345	342

- **Cybercrime:** 4,825 cases registered in 2025 and 1,542 detected (32%). Cheating dominates (3,262; including 856 share-market investment frauds, 303 job frauds, 191 "digital arrest" cases), followed by credit-card/online fraud (655), obscene content (252) and fake profiles (169). The August 2026 statement shows 4,254 registered and 1,121 detected; the figure's magnitude suggests a year-to-date total even though it is headed "August 2026". For comparison, 2022 had 4,723 cases with 8% detection (Praja).
- **Narcotics (NDPS):** the Dec 2025 statement lists 7,623 cases (1,141 possession, 6,482 consumption), including about 313.7 kg of mephedrone and 1,397 kg of ganja, with a seized value near Rs 857 crore. The Aug 2026 statement lists 5,552 cases (794 possession, 4,758 consumption).
- **Economic Offences Wing:** 123 cases in 2025 and 80 in Jan-Aug 2026, with very large sums involved (roughly Rs 17,342 crore in 2025 and Rs 5,485 crore in 2026 to date, as printed).
- **NCRB 2024:** Mumbai registered 70,054 cognizable offences, up 7.1% from 65,441 in 2023, and ranked second to Delhi in several categories (Mumbai Live). POCSO cases: 1,416, of which 660 were rape.

3.3 Area-wise: Mumbai police regions and zones

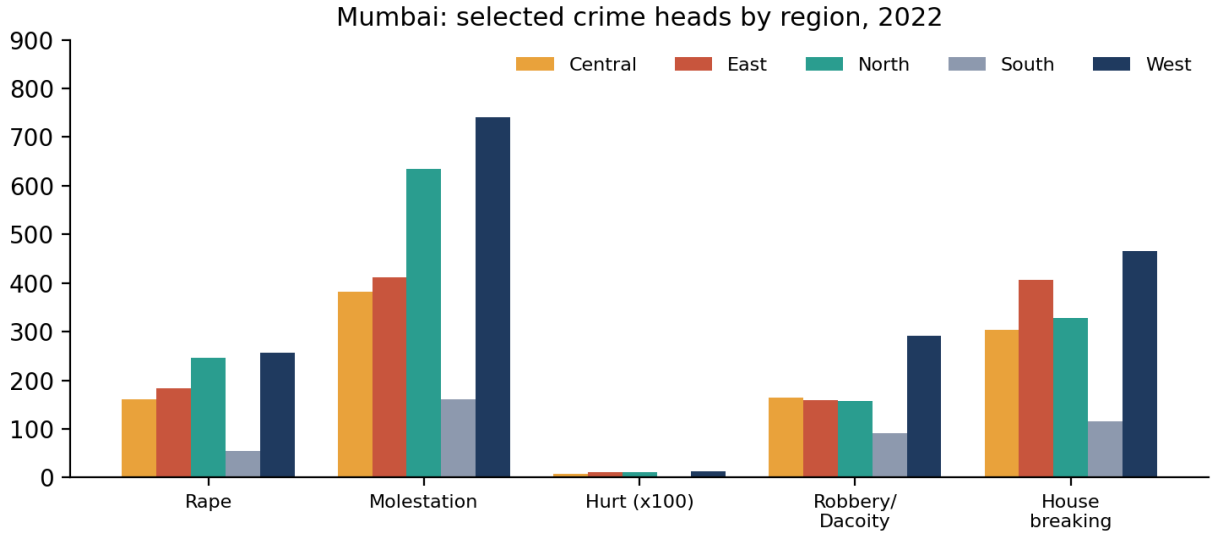

The latest police-region data I could obtain (Praja, from RTI replies) covers calendar year 2022. Region totals sum exactly to the city totals for each crime head.

Crime head, 2022	Central	East	North	South	West	Mumbai
Police stations	20	18	16	16	21	91
Total registered crime	14,289	11,576	15,684	9,590	**18,999**	70,138
Murder	23	**34**	24	17	30	128
Rape	161	184	246	54	**256**	901
Molestation	382	411	635	160	**741**	2,329
Hurt	807	1,097	1,137	288	**1,321**	4,650
Riots	49	42	73	37	**81**	282
Chain snatching	34	**59**	47	6	44	190
House-breaking (day and night)	303	406	328	116	**466**	1,619

Crime head, 2022	Central	East	North	South	West	Mumbai
Robbery and dacoity	164	159	157	92	**291**	863
Thefts	2,824	2,221	3,466	1,582	**4,702**	14,795
Vehicles stolen	544	626	722	223	**943**	3,058
Police personnel vacancy	-20%	-10%	-20%	-31%	-24%	-30%

Source: Praja Foundation (2023), Tables 3 and 31-39, RTI data for 2022. Bold marks the highest region for that head. Region total for Mumbai is the sum of region totals.

- **West region** was highest in 8 of the 10 itemised heads. It covers Zones 8, 9 and 10 (see below).
- **South region** (Colaba to Malabar Hill and the port zone) had the lowest count on every itemised head, and also the worst police vacancy (31%).
- **North region** ranked second on theft (3,466), rape (246) and molestation (635).
- **East region** had the most murders (34) and chain snatchings (59).
- **Data note:** Praja's summary table labels North as highest for molestation in 2022 (635), but its own region annexure gives West 741, which is the figure that reconciles to the city total of 2,329. This report uses 741.

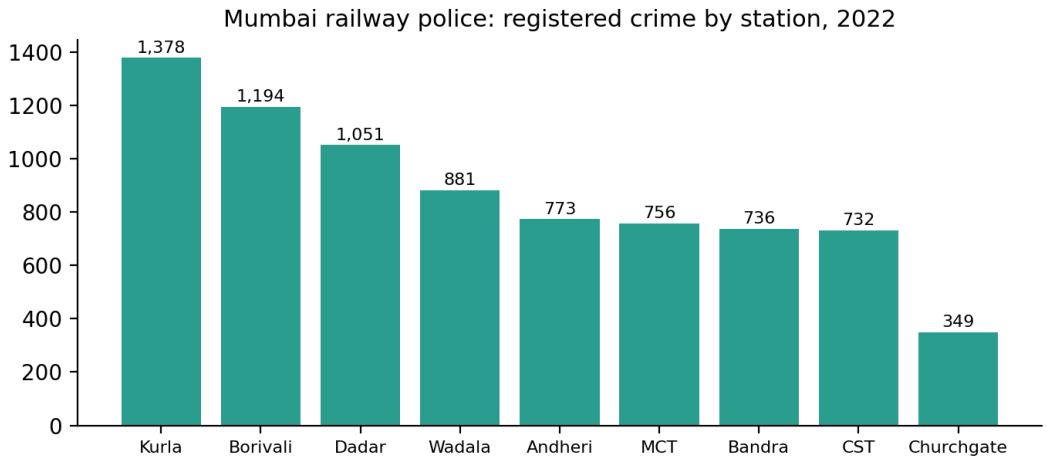

Regions, zones and the areas they cover

Region	Zone	Areas
South	1	Colaba, Cuffe Parade, Azad Maidan, M.R.A. Marg, Dongri, Sir J.J. Marg, Marine Drive
South	2	Pydhonie, L.T. Marg, V.P. Road, D.B. Marg, Gamdevi, Malabar Hill
South	Port	Yellow Gate, Wadala, Sewri
Central	3	Tardeo, Nagpada, Agripada, Byculla, Worli, N.M. Joshi Marg
Central	4	Bhoiwada, Kalachowki, Matunga, R.A.K. Marg, Sion, Antop Hill, Wadala Truck Terminal
Central	5	Dadar, Shivaji Park, Mahim, Shahu Nagar, Kurla, Vinoba Bhave Nagar, Dharavi
East	6	Chembur, Nehru Nagar, Trombay, RCF, Deonar, Shivaji Nagar, Tilak Nagar, Chunabhatti, Mankhurd, Govandi
East	7	Ghatkopar, Pant Nagar, Vikhroli, Kanjurmarg, Navghar, Bhandup, Mulund, Parksite
West	8	Vakola, Vile Parle, Kherwadi, BKC, Nirmal Nagar, Sahar, Airport
West	9	Bandra, Khar, Santacruz, Juhu, D.N. Nagar, Versova, Oshiwara, Amboli
West	10	Meghwadi, Sakinaka, Powai, MIDC, Andheri, Jogeshwari
North	11	Bangur Nagar, Goregaon, Malad, Malvani, Borivali, Kandivali, Charkop, MHB Colony, Gorai
North	12	Vanrai, Dindoshi, Kurar, Samta Nagar, Kasturba Marg, Dahisar, Aarey

Source: Praja Foundation (2023), Annexure 3. Zone boundaries may have changed since.

3.4 Area-wise: Mumbai railway police, by station (2022)

Railway crime is recorded separately by the Government Railway Police at nine stations. Thefts account for nearly all of it.

Station	Murder	Robbery / dacoity	Thefts	Rape	Molest.	Other IPC	Total	Rail deaths
Kurla	1	48	1,295	1	9	24	1,378	233
Borivali	1	39	1,098	1	7	48	1,194	240
Dadar	1	41	989	0	8	12	1,051	107
Wadala	0	78	785	0	4	14	881	109
Andheri	0	30	708	0	10	25	773	77
Mumbai Central	0	22	688	2	11	33	756	112
Bandra	0	27	691	0	1	17	736	99
CST	0	32	677	0	4	19	732	116
Churchgate	0	7	333	0	6	3	349	36
All stations	**3**	**324**	**7,264**	**4**	**60**	**195**	**7,850**	**1,129**

Source: Praja Foundation (2023), Tables 16-19 and 42. "Rail deaths" are accidental deaths (line crossing 43%, falling from trains 28%, natural/illness 25%).

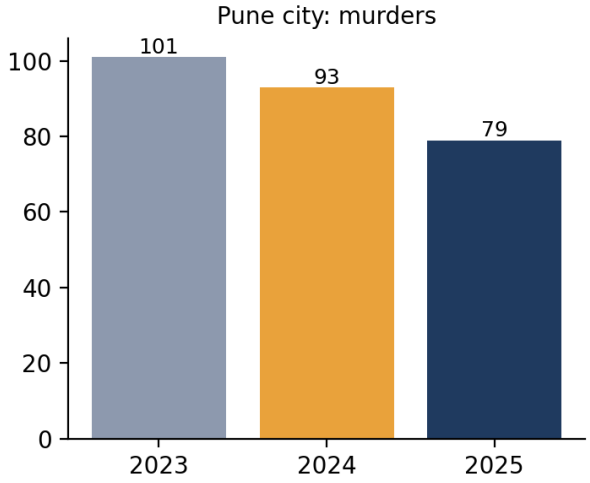

4. Pune

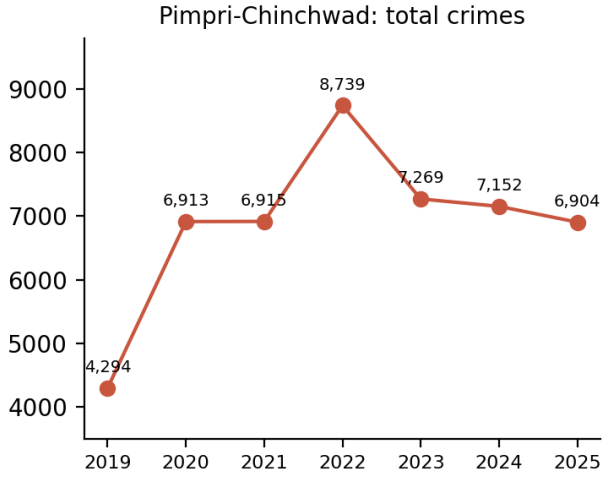

Pune has two policing jurisdictions: **Pune City Police** (about 30 stations, now being expanded to seven zones) and the separate **Pimpri-Chinchwad Police Commissionerate** (PCPC). They are reported separately below.

4.1 Pune City: trend, 2022 to May 2026

Indicator	2022	2023	2024	2025	Note
Murder	-	101	93	79	-15% in 2025
Attempt to murder	336	244	240 (186 in Jan 2025 release)	179	Lowest in 5 years
Hurt (non-fatal assault)	-	-	1,515	1,453	Road rage, disputes
Rape	-	410	505	n/a	Police: more registration
Molestation	-	775	864	n/a	As above
Cheating (incl. cyber, economic)	-	1,108	2,021	n/a	Nearly doubled in 2024

Sources: Pune Police Annual Crime Reviews 2024 and 2025 via Free Press Journal (23 Jan 2025) and PTI (29 Dec 2025). The attempt-to-murder figure for 2024 is reported as 186 in the January 2025 release and 240 in the December 2025 comparison; the reason for the difference is not explained. 2025 rape, molestation and cheating totals were not found.

2026 so far, and the "crime capital" dispute

- In a June 2026 letter to MP Supriya Sule, Commissioner Amitesh Kumar said that, comparing Jan-May 2026 with Jan-May 2025, **murder plus attempt to murder fell 10.5%, robbery 36%, hurt 3% and rape 7%** (Daily Pioneer, 3 June 2026). The letter also cites falls of 27% (attempt to murder), 56% (chain snatching), 14% (house-breaking), 24% (theft) and 28% (vehicle theft) over the 2023 to 2026 period, and notes a small rise in murders, most within families.
- Citing NCRB's 2024 report, the Commissioner says Pune ranks **18th of 19 metros on overall crime rate**, 15th on total IPC/BNS crimes and 11th on murder rate, and rejects the "fifth-highest" claim. These are police-stated rankings; I could not independently check the NCRB tables.
- NCRB 2024 recorded **1,504 cybercrime cases** in Pune, fifth among metros (Hans India).
- Organised crime: police say nearly all major gangs are booked under MCOCA. In 2024 they reported a Rs 3,700 crore international drug racket bust.

4.2 Pimpri-Chinchwad (separate commissionerate)

Indicator	2019	2020	2021	2022	2023	2024	2025
Total crimes registered	4,294	6,913	6,915	8,739	7,269	7,152	6,904
Molestation	443	285	351	445	396	387	392

- 2025: **63 murders, 301 rapes, 392 molestation cases**. Rape registrations have risen steadily; molestation has plateaued for three years (Free Press Journal).
- The cyber police station, in its first full year, registered **269 cases**, arrested 215 accused from across India and recovered Rs 24.38 crore.
- Police say crime peaked in 2022-2023 and has fallen since.

4.3 Area-wise: Pune zones, stations and reported hotspots

I could not find per-zone or per-station crime counts for Pune in public sources. What is available is the policing structure and named incidents.

Zone (pre-2025 structure)	Divisions and notable stations
Zone I	Vishrambaug and Faraskhana divisions (Samarth, Faraskhana, Khadak, Deccan, Vishrambaug)
Zone II	Swargate and Lashkar divisions (Swargate, Sahakarnagar, Lashkar, Koregaon Park)
Zone III	Sinhagad Road and Kothrud divisions (Kothrud, Sinhagad Road, Warje Malwadi)
Zone IV	Yerawada and Khadki divisions (Yerawada, Vishrantwadi, Khadki)
Zone V	Wanawadi and Hadapsar divisions (Wanawadi, Hadapsar, Kondhwa, Mundhwa)
New Zone VI (sanctioned)	Hadapsar, Kalepadal, Mundhwa, Phursungi, Manjari, Lonikalbhor
New Zone VII (sanctioned)	Lonikand, Wagholi, Lohgaon, Airport, Kharadi, Chandannagar

Sources: Pune City Police station lists; Punekar News and Pune Pulse on the state's sanction of five new stations (Narhe, Laxminagar, Yewalewadi, Manjari, Lohgaon) and two new zones. The first five rows follow older published listings and may not match the current structure.

Named incidents by area (2024 to 2026)

Area	Incident	Status per reports
Swargate (bus depot)	Feb 2025: a 26-year-old woman was raped inside a parked state-transport bus at dawn by a history-sheeter with about six prior theft/robbery cases. The depot sits beside a police post.	Accused arrested within about three days after a manhunt with drones and sniffer dogs; a departmental inquiry was ordered against depot officials.
Bhavani Peth	2025: killing of 18-year-old Ayush Komkar, linked to the feud following the Sept 2024 murder of former corporator Vanraj Andekar.	MCOCA invoked against 21 accused in the Andekar case.
Yerawada police jurisdiction	May 2024 Porsche crash that killed two; a minor was the accused.	Ten accused arrested per police; a doctor accused of tampering with blood samples was granted bail by the Supreme Court in Feb 2026.
Hadapsar (Shewalwadi)	Jan 2026 robbery of a jewellery shop.	Robbers arrested within 24 hours (Policenama).

Pune's police say the main sources of everyday violence are personal disputes, road rage and neighbourhood quarrels, and that gang crime has been suppressed through MCOCA prosecutions. Property crimes (vehicle theft, theft) fell in 2025 with higher recovery rates.

5. Bengaluru

Bengaluru City Police is among India's largest metro forces. As of 2026 it runs 11 law-and-order divisions (the original eight: Central, East, West, South, South-East, North, North-East and Whitefield; plus North-West, South-West and Electronics City added after 2024), with about 116 law-and-order stations and 9 dedicated cyber, economic and narcotics (CEN) stations. In August 2026 the Commissioner reportedly proposed splitting the city into five commissionerates; this is a proposal, not a decision.

5.1 City-wide totals

Indicator	Figure	Source
Bengaluru City, IPC/BNS crimes, 2025	37,181	Karnataka State Police 2025 data (OpenCity)
Bengaluru City, Special and Local Law crimes, 2025	19,291	Same
Total, 2025	**56,472**	Sum of the two
Bengaluru City share of Karnataka IPC/BNS crime, 2025	about 27% (of 138,666)	Same
All crimes, 2023 (for context)	68,518 (+48% on 2022's 46,187)	Deccan Herald, Jan 2024
Detection rate, 2023 vs 2022	29% vs 45%	Deccan Herald
Murders, 2022	172	Deccan Herald, Jan 2023

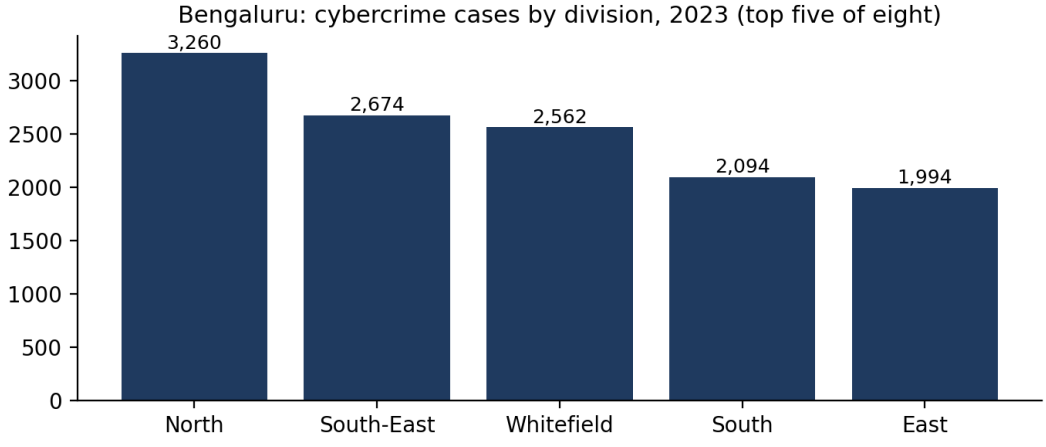

The 2023 and 2025 totals may not be defined identically, so the apparent fall should not be treated as a like-for-like decline. Neighbouring Bengaluru District (6,433 IPC/BNS) and Bengaluru South (3,644) are separate police units and are not included.

5.2 Trends reported by police data

- **Street crime fell in 2025:** robbery -47%, chain snatching -53%, dacoity -21%, motor vehicle theft -19%. Officers credit Hoysala patrol vehicles and geotagged CCTV (over 5.35 lakh cameras linked to the MCCTNS network by May 2025). Murders were roughly flat over three to four years (Deccan Herald, 14 Jan 2026).
- **Cybercrime:** 6,422 cases (2021), 9,940 (2022), 17,623 (2023), 17,561 (2024, NCRB). In Jan-Oct 2025 cases fell 41% to 8,927 from 15,084. Some officers told Deccan Herald that FIRs are not being registered for small-value frauds, so the fall may partly reflect registration practice.
- **NCRB 2024:** Bengaluru had the highest cybercrime rate of any metro (206.6 per lakh); fraud accounted for 16,842 of the cases. Of the 17,561 cases, only 3,632 were resolved and 13,929 remained pending (Hans India).
- **Crime against senior citizens** rose 41.7% between 2022 and 2023 to 649 cases, with cheating and forgery the largest share (NCRB via Deccan Herald).

5.3 Area-wise: Bengaluru police divisions

Division-level totals for all crimes are not published in the sources I could access. Division-level **cybercrime** figures were reported for 2023 and 2024.

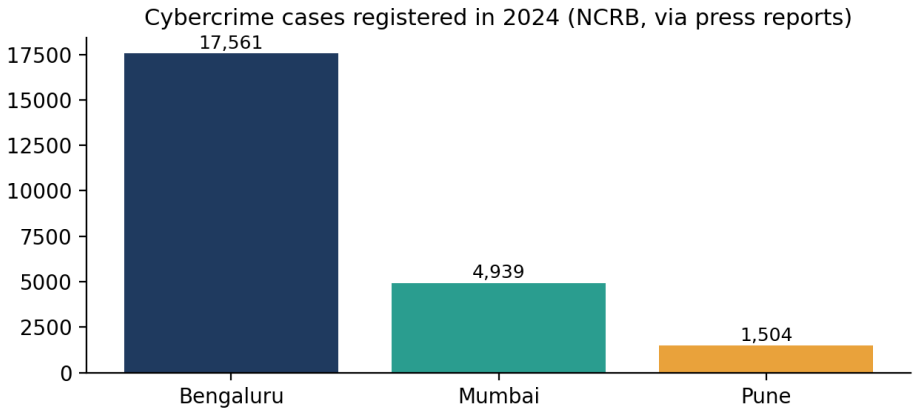

Division	Cybercrime cases, 2023	Cybercrime cases, 2024
North	3,260	n/a
South-East	2,674	n/a
Whitefield	2,562	**3,680** (highest; only 24 solved per DCP report)
South	2,094	2,443
East	1,994	n/a
Other divisions (West, Central, North-East)	about 5,040 combined (calculated)	n/a
City total	**17,623**	**17,560**

Sources: Deccan Herald (4 Jan 2024), Newstrail India (2025, citing police data). The 2023 "other divisions" figure is the residual after subtracting the five named divisions from the city total. Whitefield's DCP said about 40% of crime in the division is cyber-related, with many victims being educated professionals.

Older station-level snapshots

Earlier FIR counts for IT-corridor stations are available but are too dated to rank current hotspots: in 2019, Whitefield recorded 538 FIRs, Koramangala 415, HSR Layout 411, Bellandur 376 and Electronic City 321 (ResidentsWatch). A 2015 RTI analysis found Madiwala and Peenya Industrial Area registered the most cases among stations. Police attribute high counts in affluent and IT areas to disposable-income targets for theft, and to residents being more willing to report.

6. Side-by-side comparison

Measure	Mumbai	Pune City	Bengaluru City
Latest full-year total (own police data)	64,012 IPC/BNS (2025)	not found	37,181 IPC/BNS + 19,291 SLL (2025)
NCRB 2024 total cognizable crime	70,054	not found	not found
Murders	126 (2025)	79 (2025)	172 (2022, latest found)
Rape	1,262 (2025, incl. s.69 BNS)	505 (2024)	n/a for city
Molestation	2,468 (2025)	864 (2024)	n/a for city
Cybercrime	4,825 (2025); 4,939 (NCRB 2024)	1,504 (NCRB 2024)	17,561 (NCRB 2024)
Detection, cyber	32% (2025)	not found	about 7% (2023)
Direction of travel in 2025-26	Totals up (mostly Other IPC); violent heads mixed	Serious violent crime down	Street crime down; cyber registrations down
Area-wise data available	5 regions (2022), railway stations (2022)	Structure only	Cyber by division (2023-24)

Counts are not strictly comparable across cities: each force classifies and registers differently, and Mumbai's monthly statements count IPC and BNS together while Bengaluru's state data separates SLL.

7. Limitations

- **Registered, not actual, crime.** Easier registration channels raise counts. Police in all three cities say so.
- **Different years across cities.** Mumbai is current to August 2026, Pune to May 2026 (partial), Bengaluru to 2025.
- **Area-wise data is the weakest part.** Mumbai's regional breakdown is from 2022; Pune and Bengaluru have no public per-area totals that I found.
- **Secondary reporting.** NCRB 2024 city figures and Pune's annual reviews were read through news reports and the Commissioner's letter, not the primary tables.
- **Some figures in the Mumbai PDFs are garbled in text extraction** (the cyber, drug and economic-offence tables). I used only figures that sum correctly and flagged ambiguity where a header and magnitude disagree.

8. How to get finer area-wise data

- **Mumbai:** mumbaipolice.gov.in/CrimeStatistics (monthly statements); Maharashtra Police CCTNS citizen portal for published FIRs by station; RTI to each of the five regional offices for station-wise counts.
- **Pune:** punepolice.gov.in and CCTNS published FIRs; RTI to the Pune City Police Crime Records section for zone and station-wise registrations.

- **Bengaluru:** ksp.karnataka.gov.in crime reviews; OpenCity datasets (data.opencity.in); RTI to the City Crime Records Bureau for division and station-wise data.
- **Newspaper archives:** for Hindi and local-language coverage (Dainik Bhaskar, Patrika, Lokmat, Prajavani and similar), I can target specific incidents, months or localities if you name them.

9. Source list
